

## **License Review Committee**

### **Annual Report, September 2006 – September 2007**

Submitted by Linda Wobbe, Chair  
and the members of the License Review Committee: Rick Burke, Michael Epstein

**I. Review and Revision of the SCEL C Contract Points.** In an effort to make the SCEL C Contract Points easier to use by members of the LRC, the Chair re-ordered the Contract Points to follow the general layout of most license agreements. In addition, the Contract Points were supplemented with suggested language using text from one or both of two model license agreements (NERL and CDL). Additional comments regarding text to watch out for was added. The draft was presented to the Product Review Committee for input in March. The revised version was presented to the Board for its review.
